## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 40 and 41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Tsunoda et al. U.S. Patent 5,914,531 A.

Tsunoda et al. discloses a mold for molding a package for at least one die 1 bonded to a substrate 2, the mold comprising a first mold portion 20 that defines a package cover for encapsulating the at least one die and a portion of a surface of the substrate 2 to which the die 1 is bonded, and a second mold portion 21 that defines a rib that projects outwardly from a surface of the substrate opposite to a surface of the substrate to which the at least one die is bonded. Tsunoda et al. also discloses a mold wherein the first mold portion and the second mold portion define package covers and ribs for a plurality of die bonded to the substrate (see figure 3B).
